Collecting the World

Collectors, like Mr. Horniman, travel the world looking for amazing objects and plants to take home.

You can go on a journey today too! Explore our Museum and Gardens. Draw or describe something you find from each of the labelled places in the circles.
Excellent Exhibitions!

Museums create amazing exhibitions by putting some of their objects in big glass cases. This means that lots of people can look at their collections without touching or breaking things.

Use this space to create your own exhibition by drawing a case full of your favourite things from our Museum.

Try this at home...

This Museum began as Mr Horniman’s house! Why not create a miniature museum in your home? It could be a museum about food, toys, or perhaps something that you collect.

Take a photograph and send it to us:  📷  📱  🐦  #Horniman
